Subject: Articles to Include in the Record for the "Strengthening Transparency in Regulatory Science" Proposed Rule

Dear Dr. Sinks,

Attached please find an article on EPA's "Strengthening Transparency in Regulatory Science" proposed rule that was published in the New England Journal of Medicine (NEJM) on August 29, 2018, as well as several articles referenced by the first article. All of the attached documents should be included in the administrative record for the rulemaking.

We understand that the comment period on the proposed rule officially closed on August 16, 2018. As this article was published by the NEJM on August 29, however, it could not have been submitted before the comment period closed. Therefore, we are providing the article and the articles it references to the EPA now, less than three weeks after the comment period closed, which should provide a sufficient amount of time for the EPA to consider them as the Agency decides whether and how to move forward on this proposal.

Please confirm that the attached documents will be included in the record. I am happy to answer any questions.

Best regards,
Tyler Smith
